Buyer's Guide to **ANNUITIES**

WHAT IS AN ANNUITY?

An annuity is a series of payments made at regular intervals. You can buy annuity contracts from life insurance companies. In return for premiums that you pay, the company will pay you an annuity. The main reason to buy an annuity contract is to obtain an income, usually for retirement purposes. An annuity contract is not a life insurance policy or a health insurance policy. It is not a savings account or savings certificate, nor should it be bought for short-term purposes.

TYPES OF ANNUITY CONTRACTS

Annuity contracts may be classified in a number of ways. The most common classifications are set out below.

Annuity contracts may be either immediate or deferred. Immediate annuity contracts provide income payments that start shortly after you pay the premium. Deferred annuity contracts provide income payments that start later, often many years later.

Annuity contracts may be either single premium or installment premium. Single premium contracts require you to pay the company only one premium. Installment premium contracts are designed for a series of premiums. Most of these are flexible premium contracts; they allow you to pay as much as you wish whenever you wish, within specified limits. Others are scheduled premium contracts, which specify the size and frequency of your premiums.

Annuity contracts may be either individual or group. Individual contracts cover only one or two persons. Group contracts cover a specified group of people.

Annuity contracts may be fixed, variable, or a combination of both. During the deferred period of a fixed annuity contract, premiums (less charges) are accumulated at rates of interest set by the company. The amount of each annuity payment is determined when payments begin. During the deferred period of a variable annuity, the value of the accumulated premiums (less charges) varies with the performance of a specified pool of investments. The amount of annuity payments also varies with the performance of the pool. Combination annuities allow you to put part of your premium in a fixed annuity and part in a variable annuity.

Some companies offer deposit fund arrangements under the provisions of their life insurance policies or annuity contracts. These arrangements allow you to pay amounts, in addition to your premiums, which will be accumulated at interest in much the same way as under a deferred fixed annuity contract. The balance of this Buyer's Guide deals specifically with deferred fixed annuity contracts and, therefore, is generally applicable to deposit fund arrangements also.

ANNUITY CONTRACT FEATURES

Your value in the contract consists of the premiums you have paid, less charges, plus interest credited. This value is used to calculate the amount of most benefits that you will receive. Charges, interest and benefits are explained below.

What Do Judges Say?

“I was trying cases when you got your felt pen out or wrote on a blackboard. And now, of course, technology exists, and I’ve tried some cases with a lot of in-courtroom technology being used and it’s very good, if well done. **But! It can be screwed up. If it collapses on you, now you’ve a problem. Or if you can’t run it right, you have a problem. But, if done right, you have a great thing** because juries are used to video presentations, bits and pieces of information being sent at them. So I think it works well, if done right.”

Hon. Joseph Huber, Santa Clara County Superior Court

What Do Judges Say?

“Juries seem to love visuals, even if it’s just jury instructions. I see it more and more.”

Hon. Jerome E. Brock, Santa Clara County Superior Court.

What Do Judges Say?

"I want you to know that you have had an opportunity by being jurors on this case to participate in **one of the most well-prepared, if not the most well-prepared, cases that I have seen, that you have been on the cutting edge as far as technology in the courtroom, that you have had an opportunity to see a case presented by people who clearly know what they're doing and how to do it. We have some technology that I have not used in my courtroom before. And we all had some concern about how is that going to work, and it worked very, very well.**"

Hon. Bonnie Sabraw (ret.), Alameda County Superior Court
